THE POISON IN ICE CREAM.

Presence There.

Medical men generally, we believe, regard ice cream as one of the least harmful forms of sweet food. Invalids are permitted by their physicians to eat it when every other sort of sweet is absolutely proscribed; and, in health, there is probably no other kind of refection more popular, particularly in the summer.

It is an unquestionable fact, however, that serious and even fatal cases of

veloped after the compound was pre-pared out of wholesome materials, or

to noxious coloring matters or flavors,

the ptomaine theary being adopted by the person responsible for making and

selling the ice cream, and the inde-pendent poison theory by the people who have been made ill.

thought otherwise.

We may add that the testimony upon the trial of the particular case to which we seer, tends to show that chocolate ice cream was the least likely of all kinds to be wholesome. It seems that ice cream makers, when other sorts of ice cream have grown somewhat stale and unpalatable, can conceal the age and undesirability of the compound by the liberal use of

the compound by the liberal use of chocolate.

Origin of Light.

by the same ratio. It is suggested that the light does not come from the sun, but the force which comes from the sun comes in contact with the atmosphere of oxygen, this combined action ignites the carbon gases and produces light. It is a theory which may be possibly demonstrated.

"Stranger in the city?" asked the affa-ble young man. "Hardly know whether

I am er not," answered the man with the sunburnt whiskers. "I only been here

am er not, answered the man with the sunburnt whiskers. "I only been here three times 'n my life, an' don't know one street fum another, but I been bun-coed twicet an' run in oncet already."—

They Are Lovers

Buffalo, Aug. 16 .- Even the special

attraction of Champion Jim Corbett in

a four-round sparring exhibition with

Jim McVey of Philadelphia failed to

attract a large atendance at the cir-

cuit races to-day. Secretary Hawley stated that with the close of yester-

day's races the association was more than \$10,000 behind.

Just e. Strong's Condition. Washington, Aug. 16.—Information re-ceived here by the family of Justice Strong of the supreme court, retired, now at his summer home at Lake Minne-wasks. V. V. that his condition is

wasks, N. Y., is that his condition is again very unfavorable.

FIGHTING THE DEVIL

Mr. Smith, the Evangelist, Doing Excellent Work Among Sinners.

NEWSPAPERS CAN ASSIST

They Have a Certain Power Which the Divine Would Like to See Them Exercise-The West Coming Out All Right.

Missoula, Aug. 16 .- "I am pretty busy these days," was the reply of Evangelist F. L. Smith to the query of a Standard reporter, who asked him for a little of his time, "but I am always glad to meet newspaper men and when I am with them I feel much at home. I have been associated with them all my life. My father was on the Tribune staff under Horace Greely and my earliest recollections are of the associations of newspaper office, Many of my most intimate friends are newspaper men and I have always believed that the newspaper possesses a boundless influence and power for good, if it is only used."

Such an introduction as that was sure to make a friend of the newspaper man. It was shrewdly politic, while it was perfectly sincere and it won the respect of the reporter for the earnest man who is conducting evangelistic services in Missoula this week. Mr. Smith is a man of decidedly pleasing address. Stout almost to corpulency, there is the pleasant twinkle in his eye that is popularly credited to fleshy people and his frankness of expression always wins an audience and makes friends for him wherever he is. But it is in his services that the true spirit of the man best mani-fests Itself. Here he is thoroughly in earnest. Everything is forgotten save the subject in hand, which is always presented forcibly and with telling ef-fect. With the fire and impetuosity of Moody, Mr. Smith combines the easy grace of a scholar and his utterances all have weight. Seldom, perhaps never, has a more magnetic pulpit orator addresesd a Missoula audience.
"What do I think of this country?"

repeated Mr. Smith to-day after the Standard reporter. "It is indeed a great country. Like the whole West, it is behind in church and religious matters but that will come out all right. It is a part of the development which the West is now undergoing and I am sure that in the end it will come out as we would like to see it. The trouble out here is that the peo-ple reverse the scriptural injunction. Seek ye first the kingdom of God and all these things shall be added unto you. They are seeking 'these things' first and expect the kingdom to be

added afterward. added afterward.

But, as I said before, it will be all right in the end. I would like to see the order reversed. It would insure greater and more substantial prosperity. The secret of the enduring success of New England is that it was started on the right plan. When those people had anything to do, they didn't call a board of trade meeting, they prayed. Whether it was planting corn, prayed. Whether it was planting corn, fighting Indians or dumping tea into

the sea, they prayed and they built up a structure that was a model. "But your country here is improving in this respect and, as a new popula-lation comes in, there will be a still greater change. The time is not far off, when the conditions that prevail in the East will exist here and then you will be prospered. As I said in the beginning the newspapers can do much to hasten this day. Their influence in the West is great and they are a power for good. I do not mean that they shall preach sermons, but they can present things in their true moral light and then they are doing their this.

and then they are doing their duty."

Mr. Smith is now holding three services each day. At 10 o'clock a. m. he conducts a meeting in the Congrega-tional chapel in North Missoula: at 2 o'clock, in the Plymouth chapel; at 8 o'clock, in the church in South Mis-soula. Despite the fact that this is not best time of year for such services the meetings are well attended. Mr. Smith will remain here until Sunday, when he will close the present series of meetings. It is probable that he will go to Great Falls next week.
On Sept 1. Mr. Smith will open a series of tent meetings in Philadelphia.

A monster tent is now being erected there, which will seat 1,000 people and the meetings will continue for some time. They will be under the auspices of all the evangelical churches and will be the largest meetings that have been held since the days of Moody and

BODY IDENTIFIED.

The Dead Man Found Was William Ton. a Sheep Herder.

Missoula, Aug. 16.—An inquest was held to-day at Lo Lo upon the body of the man found yesterday morning by Lieutenant Devol of Fort Missoula, by Justice Ross, Coroner Crain being absent from the city. All that was found upon the person of the deceased was a watch and a silver follow. watch and a silver dollar. From the lothing, the body was identified by J. H. Delaney as being that of William Ton, a sheepherder for Dave McClay, who has been missing since March 1.

The watch was shown to Mr. Mc-Clay, who identified it as being the one which Ton wore during his life time. Undertaker Lucy was sent for to-day. and brought the remains into Missoula this evening. No marks were found on the body that would indicate that murder had been committed, and the gen-eral opinion is that death came in a natural way.

The inquest will be finished to-mor-row at 2 o'clock here, the witnesses having been summoned to appear at

ANOTHER SURPRISE. Mr. Merrick's Opponent Has Just Taken Oath of Allegiene .

Missoula, Aug. 16.—Yesterday brought another surprise in the Fourth ward election case. A. W. Merrick, whose seat is being contested, won in the special aldermanic election, it will be remembered, by two votes. The question which has been raised as to his eligibility depends upon his property qualifications. It has been supposed all along that if he is not seated, his opponent, A. B. Libby, will take the ntested seat. From the proceedings of the district court, to-day, it appears that Mr. Libby was not qualified to hold the office of alderman, when the election was held, as he was not a cit-izen. He took the oath of allegiance

BEN FOSTER DEAD. He Had Been a Suff rer for Five Years-

Was Well Known Missoula, Aug. 16.—Ben Foster died at the residence of his brother on East Front street this forenoon. Mr. Foster was well known here, where he had many friends. For five years he had been a sufferer from injuries received while at work. He bore his sufferings uncomplainingly and has had the sym-pathy of a large circle of friends.

GOSSIP OF THE TOWN.

Missoula, Aug. 16 .- Tom Batten, forerly a well known resident of Missou-was a passenger on the east-bound in last night, and met some of his

old friends at the depot. C. F. Davis and family returned to-day from the East. Mrs. Davis is much improved in health. Charles L. Cowell returned to-day

from a business trip.

The Florence laundry is out with a gorgeous new delivery wagon.

J. C. Herrman and family left this evening for a tour of the eastern part

Miss Hord returned to-day from eastern Montana.
The man McNear, who tried to carve Billy Hawks the other day, was fined \$10 and costs by Judge Landers to-

The executive committee of the board of trade met this afternoon and de-cided to offer \$100 in prizes for a Cal-edonian tournament to be given on the last day of the Western Montana fair. It is expected that the Scots all over Montana will attend, and the local Caledonian society will take charge of the affair.
The first shipment of lumber for the

new depot arrived to-day.

John Rankin and wife left to-night for Anaconda.

Mrs. Powers and daughters took the east-bound train to-night for Boulder hot springs. W. A. Hoblitzeil returned to-day from California. W. C. Murphy left for Anaconda to-

A burned bridge on the Coeur d'Alene branch has caused a suspension traffic on that line to-day.

Instruments Filed

Missoula, Aug. 16.—The following in-struments were filed with the county clerk to-day:

clerk to-day:

Deed on order of sale—H. W. Mc-Laughlin, sheriff, to Missoula Mercantile company, lots 16 to 20, block 97, Arlin's addition, \$3,000.

Deed of mining claim—Thomas Buller of Pardee, to William Brabazon, Pardee, one-fourth interest in Surplus and Mayday lodes, \$1.

Deed of mining claim—John Barry.

Deed of mining claim—John Barry and James Rogers to Thomas Butler, one-eighth interest in the Kill Cronin

Deed of mining claim-John Moore et ux. to Thomas Butler, one-eighth in-terest in the Kill Cronin lode, \$250. Deed of mining claim-William Bra-bazon et ux. to Thomas Butler, onefourth interest in the Kill Cronin lode.

District Judge's deed—F. H. Woody, judge, to Fred C. Stoddard, lots 1 to 26, block 36, Thompson Falls, \$26.

District Court Notes.

Missoula, Aug. 16.—In district court to-day the case of the Industrial Trust company, trustee, vs. Annie Myers et al., came up for hearing. J. M. Dixon was entered as attorney for plaintiff and the default of Annie Myers was entered. The case was dismissed as to Charles Cawell, the other defendant. In the case of the Northwestern Guarantee Loan company, receiver, vs. C. F. Reardon et ux., J. A. M. Dix-on was entered as attorney and a motion for judgment on pleadings was submitted and taken under advisement. In the case of Mary L. Helm vs. John Gibbons et al., a decree of foreclosure was ordered entered in favor of plain-tiff for \$590, attorney's fees and costs. Eight probate cases were considered before court adjourned.

The Race Bulletins.

Missoula, Aug. 16.—The Standard's bulletins made a bit to-day. The races at Anaconda were posted as fast as they were run and an interested crowd of horsemen read them during the af-

Cure of "House Nerves."

A scientific journal has some timely remarks on what it calls "house nerves"—that is to say, the low spirits and brooding, irritable, morbid habit of stay-at-home or sedentary people.

Women, especially women who are delicate and afraid to go out owing to the weather, are those who suffer most from this malady. They grow anxious for their husbands, and conjure up ac-cidents, analyze their feelings, and lose their power of will.

"A woman who studies herself, her wants and desires, her aliments and loneliness, is on a fair road to an asylum did she but know it," says the journal. Imaginative children have a tendance in the same discrete. tendency in the same direction, and should be sent to play with merry

ompanions.

The cure of "house nerves" is very simple if people would only follow it. It does not lie in medicine or doctors, but in visiting others, long walks in the open air and sunshine, repression of every morbid thought as it arises, or expulsion of it by thinking of a necessary duty, and galety, or innocent amusements.

The Best Blood Purifier. SARSAPARILLA.

ADVERSE

The West Iron Mountain Mining Company Has a Contestant.

APPLYING FOR A PATENT

There is a Possibility of a Lively Bit of Litigation-The Kill Cronin and One Lunger Figure in the Dispute.

Missoula, Aug. 16.-This afternoon an important contest was filed in the United States land office, which may lead to considerable litigation. Nearly 60 days ago the West Iron Mountain Mining company filed in the land office an application for a patent to the Belle of the Hills lode. To-day Thomas Butler filed an adverse claim against the application. Butler claims that the ground applied for, the Belle of the Hills lode, embraces ground within his claims, the Kill Cronin and the One Lunger.

The West Iron Mountain claim ad-joins the famous Iron Mountain mine and for months there have been ruand for months there have been rumors affoat that the latter company
is taking ore from the former claim.
At sheriff's sale some time ago T. L.
Greenough bought the West Iron
Mountain property and the time for
redemption has nearly expired. If it
is not redeemed it will become the
property of Mr. Greenough, who is
also heavily interested in the Iron
Mountain.

Mountain.

The Belle of the Hills, the ground
The Belle of the Hills, the West In contest, hes just below the West Iron Mountain and it is stated that it is necessary that the West Iron Mountain people control this ground, to work their mine. The contest filed to-day hangs up the application for a patent until the courts decide as to the rightful ownership. In case Butthe rightful ownership. In case But-ler's claim is upheld, the West Iron Mountain application will be of no account and Butler will apply for a pat-ent to the ground, as covered by his claims, the Kill Cronin and the One

EXCURSION TO BOSTON. Quite a Number Will Take Advantage and Visit the East.

Butte, Aug. 16.-The sale of excursion tickets to the Boston conclave, opened to-day and quite a number of them were sold to parties who are taking advantage of the cheap rates to visit the East. The grand rush, however, will take place next Tues-day, when the tickets will be on sale again and for the last time. While again and for the last time. While these tickets are on sale for only six days the holders of them can leave at any time. But it is required to be in Boston by Aug. 27. The Knights Templar expect to leave next Tuesday afternoon and from present indications there will be a large party of them. General Agent E. V. Maze of the Union Pacific, who is himself a the Union Pacific, who is himself a Knight Templar, will accompany the party and see that they get the best of everything along his line.

SUCCESSFUL CANVASS. Manager Simpson Hustilag for the Cataract Road Project.

Butte, Aug. 16.—Daniel Simpson, of the Eva May Mining company, made a canvass of the city to-day in the interest of the Cataract road and succeeded in raising the subscriptions to \$1,500. Many subscribers doubled their original subscriptions and Mr. Simpson says he will have no difficulty in rais-ing the \$2,000. He will remain in the city until Monday and will accompany several Butte contractors over the pro-posed road. Mr. Simpson will meet all intending contractors at the office the Basin Times on Monday.

BE ON TIME.

And Get Some of Those Juley Chickens from Whiteha L.

Butte, Aug. 16.-Police Captain Waters and Jailer Frank Anderson returned toight from a two days' hunt near Whitehall. They killed about everything in sight and started home this evening with several hundred chickens, but the load was too heavy for their light buggy, which broke down with them near Pipestone. After repairing the damage as well as possible they managed to get 67 chickens and seven prairie dogs and an owl back into the buggy without over-loading it and they will be distributed by Captain Waters at the city ball at 3 'clock to-morrow afternoon

RAILWAY MAIL CARS.

They Figure Largely in Uncle Sam's Great Postal Service.

From the Boston Traveler.

One of the most important branches and most intricately systemized di-visions of the United States postoffice s the railway mail service.

Mails are carried on 169,768 miles of

railroad in the states. Postal clerks are employed in the distribution of the mails on 149,401 miles, service on the mails on 149,401 miles, service on the residue 20,367 miles, having been performed by means of closed pouches, carried by lines on which postal clerks have not been assigned to duty. The rolling stock of railway postoffice lines consisted of 550 whole cars in use and 175 in reserve, 1,911 apartment cars in use and 526 in reserve, making a total of 3,162 cars under the control of the department.

department. department.

There are 1,136 railway postoffice lines in operation, upon which 6,256 postal clerks are employed in the distribution of the mails. In addition there are 34 steamboat lines upon which 42 regular and two acting clerks are appropriated by the statement of the statem

are employed, making a total of 6,300 clerks performing duty.

Those at work on railroad lines travel in crews 155,932,943 miles in a year; those employed on steamboat lines, 1,559,433; these together in a year received headled and distributed 10. ceived, handled and distributed 10,-033,573,790 pieces of mail matter in transit, exclusive of 483,667,275 pieces which were distributed and prepared for immediate city delivery. They also received, receipted for, recorded and properly dispatched 15,253,586 registered packages and cases and 1,333,457 through registered pouches and inner registered spacks registered sacks.

The excellent record made in the dis-tribution of malls is due largely to the knowledge of the schemes and schedanowiedge of the schemes and sched-ules the employee acquire in preparing for the case examinations required of them annually. Rapidity of distribu-tion is a prime necessity in railway postoffice, because such offices run upon arbitrary schedules. They depart from the initial point and arrive at the terminal, barring accident, at fixed hours.

As a rule they run in connection with

similar offices or express trains on lat-eral or other lines; therefore the time allowed for the distribution of mails is limitd. And this work must be com-pleted within the allotted time or the mails will be delayed in reaching their

Dublin, Aug. 16.—In the presence of 5,000 people at Leinster Hall, Peter Madestination.

To prevent such delays the force Johnson of London in helf a minute.

must be equal to the work, and in or-der to secure this result as economical-ly as possible, it is essential that the clerks be very efficient, not only as to knowledge of distinction and activity of mind and body but as to the ability to endure great mostal and physical

An Important Question Before the County Commissioners.

CORONER RICHARDS' BILLS

of mind and body but as to the ability to endure great mental and physical exaction. Whatever the lack in these respects must be compensated for by additions to the force.

In cases of accidents where clerks are so seriously injured in the line of duty as to be unable to keep up the regular rung, are granted leaves of absence with pay in periods of 30 days for one year from the date of the disability, unless they recover and return to They Are Disallowed and He Thinks He Has a Grievance ity, unless they recover and return to duty sooner.
The department, however, is not au Dictinction Between Pauper and a Man Dead Broke.

Butte, Aug. 16.-In a verbal complaint

thorized to extend further relief to those who not only do not recover suf-ficiently to resume duty as clerks, but whose disabilities are of such a char resented to the county commissioners acter as to preclude them from engag-ing in any other occupation and who are therefore unable to provide for the necessities of their families and themby the proprietors of private hospitals. a question of great importance to the St. James hospital and the tax collector was brought up. Some time ago the commissioners made an order that the The officials of the service believe The officials of the service believe that public servants who perform extra hazardous service and who are so situated while performing it that they cannot know in advance of its actual accomplishment that the car in which they are at work is to be destroyed in a collision and that they will be taken from the wreck in a mangled and helpless condition, disabled for life, and therefore cannot escape the calamity, should not be subject to want or become a burden on those who have, through no carelessness on their part, become helpless and dependent. Supercounty would not pay for the care of county patients in private hospitals, and that such cases should at once be sent to the county hospital. This order was obeyed with the exception of the St. James, which is still being paid for three or four patients. The complaint made to-day is that all other hospitals have been heavily taxed by the county, and yet they are discriminated against by the commissioners. The doctor making complaint was informed that the St. James had been assessed and would pay taxes this year. It was stated that if the assessment is through no carelessness on their part, become helpiess and dependent. Super-intendent White of the service has recommended the passage of an act authorizing the postmaster-general to pay to the widow and minor children of each railway postal clerk killed while on duty the sum of \$1,000 out of the appropriation on clerk hire.

The amount expended for salaries for the fiscal year past was \$6,871,226.99. The sum of \$7,423.000 is recommended for the fiscal year of 1896. The amount expended for railway postoffice car service is \$2,921,957. decided to be legal it is probable that an effort will be made to collect taxes from the hospital for the 13 years during which it was not assessed. As the assessment on the St. this year is more than \$26,000, the tax for 13 years would amount to a con-siderable sum.

Coroner Richards in his private ca-pacity of plain Undertaker Richards to-day run up against another difficulty before the county commissioners. Un-der the provisions of the law the coro-ner is required to take charge of and give a decent burial to all persons found dead in the county who leave no means behind, and the county shall pay a reasonable sum for the service. Mr. Richards also has the contract to Mr. Richards also has the contract to bury all the county paupers at 1 cent per burial. Mr. Richards put in two bills to the county of \$45 and \$41 for burying William Harmon and B. Henderson, who were not paupers or charges of the county, but left no means behind to pay their funeral expenses. The bills were disallowed today by the commissioners on the ground that Harmon and Henderson have been buried by the county undertaker. Mr. Richards will probably take an appeal to the courts. He argues an appeal to the courts. He argues that his 1 cent contract appleis only to actual paupers and not to the thou-sands of persons who may die in Silver Bow county and not leave sufficient means behind to pay for a decent burial. The commissioners, however, think that Mr. Richards has entered into a contract and will have to stand

er, that serious and even fatal cases of poisoning occur almost every season from eating tee cream. On Sunday last for example, in Syracuse, N. Y., 50 children were made dangerously ill as the result of eating ice cream, which was sold on the streets by an itinerant vender. None of them died, but their escape from death in several instances is attributed to the small quantity in which the ice cream was sold to each customer. There was a suspicion that that late Judge Ehrlich died from the same cause. Constable W. A. Ellsworth put in du-plicate bills for fees during June and July, which were disallowed. A proposition was received to-day by the commissioners from W. S. Cobban offering a building at 417 South Monta-

that late Judge Ehrlich died from the same cause.

There are two ways in which physicians endeavor to account for the occasionally poisonous effects of ice cream. One is the presence in the compound of some distinct poison, used to color or to flavor the ice cream; the other is the development in the cream or milk of a peculiar chemical substance belonging to the class of poisons known as ptomatines. These resemble in character the peculiar poisons developed in dead bodies in the process of decay.

In almost every instance of extensive na street for use as a woman's and children's home at a monthly rental of \$55. The promises occupied at present by the home will have to be vacated by the 1st of September, as the owner, Mr. Boyce, sold the property. The county is paying half of the \$80 rent on the place. It is probable that the In almost every instance of extensive poisoning by ice cream controversy has been as to whether the deleterious ef-fects were due to these ptomaines, de-

commissioners will seek another loca-tion for the home.

The bill of Sheriff Reynolds for the The bill of Sheriff Reynolds for the board of prisoners at the old rate of 69 cents a head per day was allowed and ordered paid to-day without opposition. The claims of Peter Brennan, Frank Gilmartin and John O'Rourke as witnesses in the insanity case of Ed. Kerrigan were disallowed because the new codes do not provide for the payment. not provide for the pe of fees in insanity cases except \$5 each for the two doctors comprising the commission of investigation.

A case of this kind came before the courts of this state some years ago, and finally went to the court of appeals, where a verdict of \$800 was sustained against a firm of druggists for selling to an ice cream manufacturer a certain preparation of red coloring matter, designed to be used for giving a pink tint to ice cream. The contention of the defer and that the poisonous effects of the ice cream thus colored were due to ptomaines, was rejected by the jury, but perhaps this was not very strange, inasmuch as the evidence in behalf of the defendants showed that there was arsenic in the liquid which FOR CATARRH Soro-Menthol Druggisis Sell It. there was arsenic in the liquid which they sold. Their expert witnesses de-clared that the proportion of arsenic was not large enough to hurt any one who ate the ice cream, but the jury thought otherwise.
